- Committed & dynamic faculty members. Healthy teachers –students relationship
- Cordial management & Staff relationship.

Weakness

- Low pass percentage of students.
- High dropout rate.
- Poor linkage and collaboration with industries & other institutions.
- Absence of structured mechanism to promote consultancy.

Opportunities

- There is enough scope for the introduction of add-on / job oriented courses.
- Introduction of new courses at both UG & PG level.
- Consultancy for banana & sugar cane growers.

Threats / Challenges

- To increase the pass percentage & reducing the dropout rate.
- Attracting students towards traditional Arts and Science courses.
- Poor employability and low esteem of students.
- Competition with neighbouring institutions.

8 Plans of institution for next year

1. To form a memorandum of understanding (MOU) for research and development between two colleges.

Title of the Practice

1. **ICT -The Need of Hour.**

2. **Goal:**Now a day the information technology and use of ICT is very much important in imparting the latest knowledge in almost every field. One part of the mission of our institution is to enable students to face various challenges of the changing world. In this context the use of ICT play a key role. As the institution is situated in rural area most of the students came from uneducated, economically poor and socially disadvantaged families. The objectives of institution are to up lift and upgrade the learners from rural area to face the various challenges of changing world and to be in pace with urbanite learners; so that they should not lag behind them.

   The goal of this best practice is to provide essential ICT facilities to the staff as well as students and to motivate them to use it.

3. **The Context:** Prior to this practice we were using the traditional teaching methods. There was lack of modern teaching methods based on ICT. The college managements approach about the use of ICT is very positive. They provide some fund to establish these facilities at the campus before we received UGC funding. As the college received funding resources from UGC we have purchased all the equipment, accessories related to ICT and made available sufficient facilities. In the college there are two audio-visual rooms equipped with internet facility, LCD projector and public address system. Out of two audio-visual rooms one room is air-conditioned. There is broadband radio internet connectivity of 10mbps. All the departments are connected with LAN. The computers with printer and necessary accessory along with hi-speed internet facility are provided to all departments by the institution. The standby power supply facility such as UPS (Uninterrupted Power Supply), Generator set is also available at the campus.

   In short we have made available whatever we fill necessary for the maximum usage of ICT. But internally, the greatest challenge before the institution is to change the mental setup of our students and employees. However, by continuously motivating them, most of the students and members of teaching and non-teaching staff are taking advantage of the ICT facilities.

4. **The Practice:**

   ICT-The Need of Hour is the best practice adopted by the institution. For the effective implementation of this practice we have planned certain important things.

   We have organized awareness programme to develop the ICT aptitude among the students, teachers and non-teaching employees of the institution. The resource persons are frequently invited to inculcate the importance and significance of the ICT based tools and their application. Our faculty delivers lectures on online services like e-Suvidha, e-scholarship for the students.

   The facility of e-books & e-journals from INFLIBNET is also available at the campus. Most of the important documents are converted into soft copies by scanning process.

With the help of the funds received from UGC the ICT facilities are made available at the campus. We have created almost all the ICT facilities. The list of available tools, equipment's and facilities is below:

Sr. No.	Name of the tool	Quantity
01	Laptop Computer	02
02	Desktop Computer	56
03	LCD projectors	04
04	LCD screen	03
05	Printers	14
06	Internet connections	02
07	M.S. Office license software	45
08	Windows operating system license software	47
09	SOUL software	01
10	College Management System Software	01
11	Visual Studio-2016 Application Software	05
12	Podium	01
13	Portable Public Address System	02
14	Routers (Wi-Fi)	02

5. **Evidence of Success:** The feedback from the students and the staff show the success rate such as performance against target.

	Target	Success	Percentage
No. of computer literate faculty	21	21	100%
No. of faculty using ICT in teaching	21	19	90.45%
No. of computer literate non- teaching employees	11	11	100%
No. of computer literate students.	504	340	67.46%

These results indicate that the institution is becoming successful to achieve desired target of 100 % computer literacy at the campus. Computer literacy is the foundation of the use of ICT facilities.

6. **Problems Encountered and Resources Required:** As per our need we have enough resources to face the problems. There are no major problems occurred. If any technical problem arises our technician resolves it. We also call professionals whenever necessary.

Annexure-V

2. Title of the Practice: CHEMISTRY ASSOCIATION AND SCIENCE MANDAL

Chemistry Association of Students in collaboration with Science Mandal conducted extension programme in the year. The College aspires to focus on the overall personality development of the students along with the academic excellence. It is one of the best practices used to realize the goals of the college-the empowerment of rural student and bringing about social changes.

GOAL

1. To develop awareness and interest of learning, in the hearts of the today's student.
2. To tap and groom the inherent talents of the students.
3. To make students multidimensional.
4. To inculcate interest and build confidence among the students whose academic performance is average or below average.
5. To improve the academic performance of meritorious students.
6. To create interlink between UG and PG students.
7. To give encouragement to innovative ideas of students.
8. To think clearly and critically and to communicate effectively.
9. To bring forth the team spirit and leadership qualities of the students.
10. To make some entertainment with academic work.

THE CONTEXT

In the direction to achieving goal, at the starting of college, the Association of in consultation with Science Mandal was established Structure of this association like a management body of any institution. In this Principal of college and HOD of chemistry department appoint one Assistant professor as a teacher in charge of Chemistry association, and other posts like president, vice president, secretary, joint secretary and members are occupied by UG and PG students. In the structure of association from each class of B.Sc. and M.Sc., have a two member, one boy and one girl. All the authority of planning and discussion has this main body. With this main body we make different committees of students like Aroma committee, refreshment committee, Rangoli committee, Stage decoration and Arrangement committee etc with one committee chairman. Initially main body makes a tentative schedule of programs and activity that have to taken. Then give responsibility of each activity or Programmes to one teacher in college just as a observer and guide. Chemistry association does not demand any funding to college, it is self-running association, create its funds from collection of 20 or 30 rupees per students.
